How to Setup Your Device to Your TV

Step 1

Connect the HDMI end of the device into an HDMI port on your TV.

If needed use the HDMI extension cable included in your devices package.

HDMI

Step 2

Connect your A and B power cords. Then, connect one end into your DigitalB and the other into a wall outlet.

Power Cable

Step 3

Connect your wireless USB input device's receiver to your DigitalB.

Step 4

Power on your display and select the proper HDMI port through your display's settings. Then power on your DigitalB Media Player by pressing the power button. Use your wireless input device provided to go through the DigitalB Media Player setup.

If you need to charge your device, plug the mini connector into input device and USB connector into any device with a USB port.
